SUMMARY

Enthusiastic and self-driven Computer Science undergraduate with strong skills in Flutter, Dart, React Native and full-stack development. Experienced in building real-world applications, integrating Firebase, and solving problems with Java and JavaScript. Strong foundation in Data Structures and Algorithms.

Achievements

- Solved 200+ DSA problems on LeetCode
- 4 Star Problem Solving – HackerRank
- Won a coding contest CODEMANIA 2025 At KCC Institute of Technology and Management

Education

KCC Institute of Technology and Management, B. Tech. in Computer Science and Engineering (AI & ML) 2022 – 2026

- CGPA: 7.0
- **Coursework:** Computer Architecture, Design and Analysis of Algorithms, Data Structures, DBMS

Experience

React Native Developer, Digivity.in – Knowledge Park III, Greater Noida, UP May 2025 – June 2025

- Created a Mobile educational platform called Lernocept from scratch
- Integrated with the existing backend database of a Web client of the same educational platform

Projects

Chirp – Instant Messaging App 2024

- Developed a real-time chat app with Flutter, Firebase Firestore and Storage.
- Tools used: Flutter, Firebase , Dart

Tic Tac Toe Game 2025

- Built a classic 2-player game with clean UI for both Mobile and Web.
- Tools used: Flutter, Dart

Chess Game 2024

- Implemented complete chess logic and UI and built this chess game for Android.
- Tools used: Flutter, Dart

Weather App 2024

- Created a weather forecasting app using API and location services that works as a mobile app and a web app.
- Tools used: Flutter, Dart, OpenWeather API

ReState – Real Estate App 2025

- Developed a mobile real estate buying and selling demo app.
- Tools used: React Native, JavaScript, Expo, TypeScript

Skills

Languages: Java, JavaScript, TypeScript, Dart

Technologies: Flutter, React.js, React Native, Node.js, Express.js, Firebase, MongoDB, Git, GitHub, REST APIs, MYSQL, HTML, CSS, tailwind-css
